

First-time login to the NSS Extranet

IMPORTANT DISCLAIMER:

To successfully complete all steps in this guide, including scanning the QR code and accessing required tools, **you must use a PC** (Windows or Mac).

Go to <https://mypage.sildelaget.no> - You will find "My Page" located to the right of the top menu on the website. **You will be redirected to the login page:**

Welcome

Log in to Norges Sildesalgslag to
continue to Extranet

[Forgot password?](#)

Continue

Enter your email address and the password you received via SMS, then click "Continue."

The following screen will appear:

Secure your account

You have to install the official Auth0 Guardian-app
via appstore on your mobile phone to continue.

App Store

Google Play

First-time login to the NSS Extranet

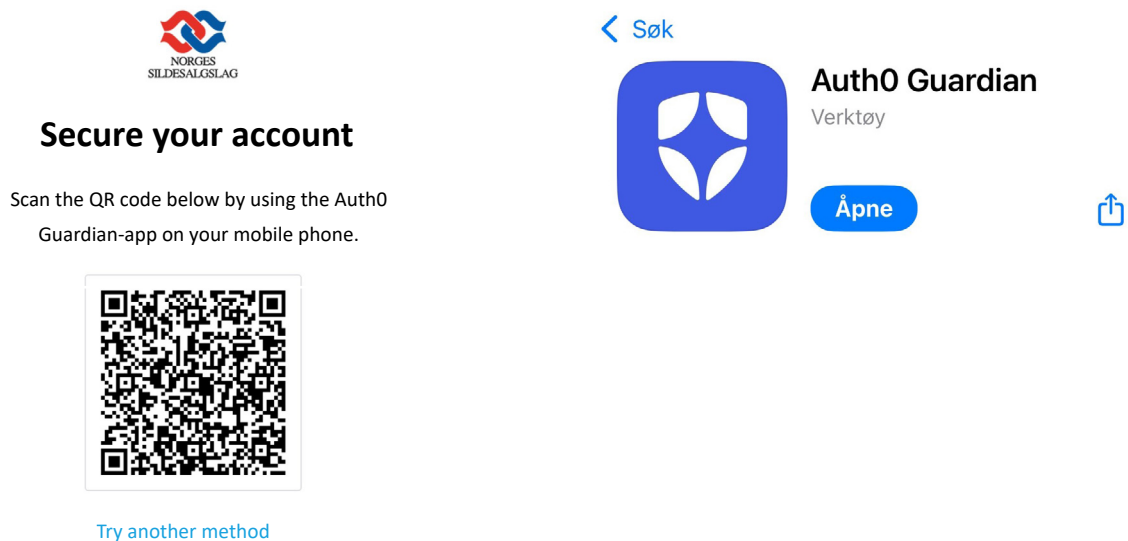

To use the new two-factor login, you must first install an app on your mobile phone.

Norges Sildesalgslag recommends using **Auth0 Guardian**, as it works best, but you may also use SMS or Google Authenticator.

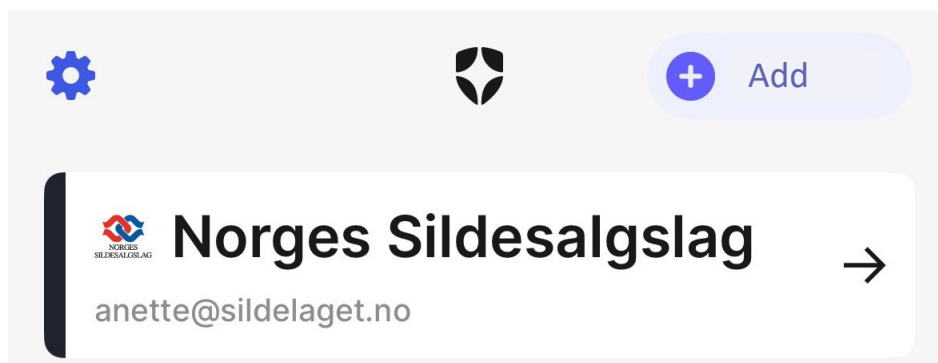

Open the App Store (if you have an iPhone) or Google Play (Android) on your mobile phone and install **Auth0 Guardian**.

Once installed, click the link “Installed and ready to log in.”

You will then see a screen displaying your QR code: This is the Auth0 Guardian app in App Store:

Open the Auth0 app on your phone. Tap the **+ Add** button in the top right corner and scan the QR code.

First-time login to the NSS Extranet

The following screen will appear:

You are almost done!

Copy this recovery code and store it in a safe place.
You will need it if you ever have to log in without your device.

7ZL4D61RCZSLV2M2RZ1VWXM5

Copy code

☐

I have securely registered this code

Continue

The code shown on your screen should be saved in case you need to log in without your phone.

Tick the box next to “I have securely registered this code” to confirm.

Click “Continue” to proceed.

You are now logged into the extranet, and the first-time login/setup is complete.
